

DEDICATED INTERNET CONNECTIVITY FOR BUSINESSES

INTERNET LEASED LINE (ILL)

• STANDARD ILL • MANAGED ILL

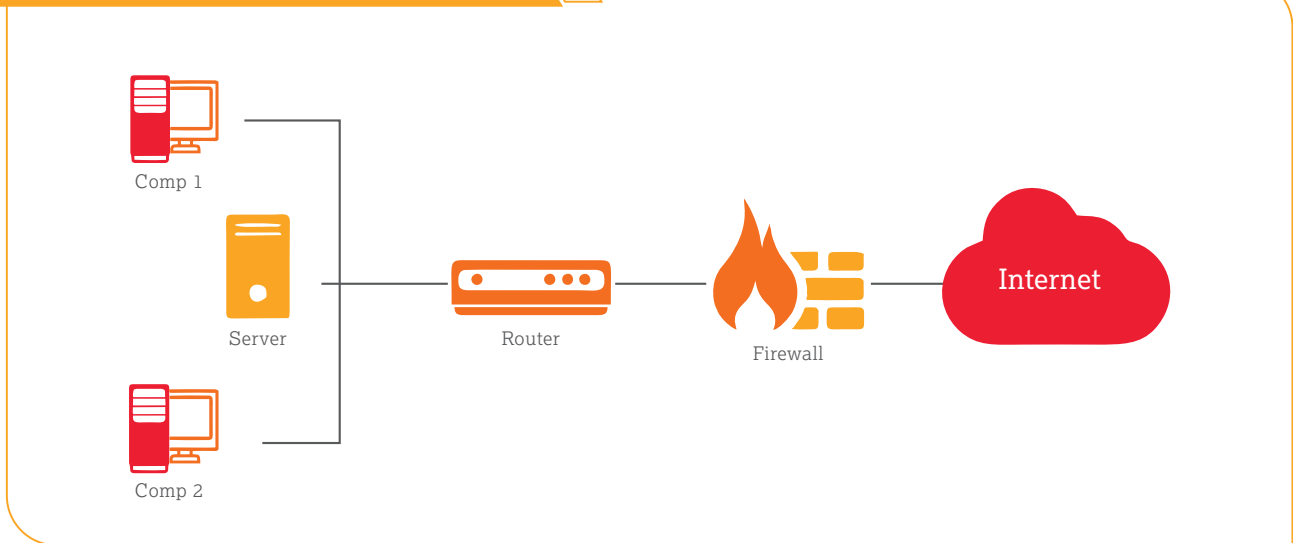

Businesses need constant connectivity to communicate and transact over internet. Shared internet lines along with multiple users accessing simultaneously, can lead to inefficiencies. Internet Leased Line service empowers you with dedicated bandwidth ensuring reliable high-speed communication and collaboration.

THE COMPLETE CONNECTIVITY SOLUTION

Our high performance and dedicated internet leased lines (ILL) give you a complete connectivity solution. It provides you with a reliable, cost effective and low latency internet service that can fulfil all your connectivity requirements.

Internet Leased Line Architecture with Firewall

BUSINESS ADVANTAGE

- Get business efficiency with high-speed internet connections
- Experience carrier grade connectivity
- Access widespread last-mile network to reach your offices across the country
- End-to-end service level agreements for latency, uptime and packet loss
- User friendly web interface to manage and monitor performance

While all our ILL solutions come packed with quality, speed, reliability, reach and great support, Managed ILL provides end to end management with enhanced security features through bundled Unified Threat Management (UTM).

UTM appliances have evolved from traditional firewall or VPN products into a solution with many additional capabilities. Our unique identity-based solutions authenticate a user by Username, MAC ID, IP Address, and Session ID for strong protection against user-targeted attacks and are offered to the customers over and above the core services of Internet Leased Line.

STANDARD AND MANAGED ILL

VARIANT COMPARISON

Features	Standard	Managed
Bandwidth		
Dedicated bandwidth	✓	✓
Symmetric bandwidth (Same upload & download speeds)	✓	✓
